PROFILE

In my four-year ascent through tech consulting, I've evolved from a fresh graduate to a senior consultant with a sharp focus on DevOps. Alongside my technical development, I maintain a strong commitment to diversity, equity, and inclusion (DEI)—values I seek in my next professional chapter. I'm eager to join a forward-thinking team where I can refine my infrastructure skills, contribute to a diverse workplace, and collaborate towards shared success.

WORK EXPERIENCE

Senior Consultant Developer / Trainer Thoughtworks

📅 03/2022 – 10/2023 📍 LONDON, UNITED KINGDOM

- Led the enhancement of a retail payment platform's infrastructure, accelerating delivery and enhancing performance.
- Played a pivotal role in the reorganization of the development team, improving project efficiency and team synergy.
- Applied in-depth knowledge of .NET, Kubernetes (k8s), and Azure to advance project objectives.
- As a Trainer at ThoughtWorks University, I delivered a detailed 3-week induction program in Java and React, supplementing it with essential consulting skills.
- Rose to the position of Lead Trainer for Europe, guiding a team in the development and execution of technical training, with a noteworthy module on AWS fundamentals for new graduates.

Consultant Software Developer Thoughtworks

📅 08/2020 – 03/2022 📍 LONDON, UNITED KINGDOM

- Restructured and unblocked the delivery pipeline process for the 2021 Retail Project in Payments and Infrastructure, focusing on the back-end. Utilized .NET, Kubernetes, and Azure.
- Collaborated as a member of an agile cross-functional team for the Finance Project, delivering new features in preparation for a major marketing campaign.
- Implemented technologies such as Microservices, Microfrontends, CD/CI, TypeScript, React, and Cloud.
- Developed and implemented features as part of an agile cross-functional team for the Public Sector Project from 2019 to 2020. Utilized a full-stack approach, employing technologies such as Microservices, Microfrontends, CD/CI, Java 8, React/Redux, ES6, RabbitMQ, MongoDB, and GoCD.

Graduate Consultant Developer Thoughtworks

📅 08/2019 – 08/2020 📍 LONDON, UNITED KINGDOM

- Successfully completed a rigorous 6-week immersive training program in Xi'an, China, gaining valuable skills in consulting within a CFR team.
- Contributed to a public sector project by assisting in the design and development of software solutions, effectively prioritizing and delivering customer requirements utilizing Agile principles.
- Demonstrated leadership by leading Agile scrum meetings and organizing backlog grooming sessions, fostering open communication and teamwork to ensure the successful achievement of project objectives.
- Promoted diversity, equity, and inclusion (DEI) values throughout project execution.

CERTIFICATES

Azure Developer Associate Microsoft

📅 01/2022

Renewed in January 2023

VOLUNTEERING

Chief Operating Officer (COO) Russian Democratic Society

📅 05/2022 – present 📍 LONDON, UNITED KINGDOM

- Led pivotal growth initiatives, establishing and nurturing a vibrant community through a period of significant expansion.
- Coordinated multifaceted teams to deliver powerful human rights campaigns, educational programs, artistic events, and humanitarian efforts with precision and impact.
- Served as a vital link, providing key resources and expert advice to enlighten UK audiences and policymakers on the intricacies of the Russian political situation.
- Fostered a culture of collaboration, ensuring clear communication and team unity that translated into the effective roll-out of strategic organizational projects.
- Managed conflict resolution and inter-team dialogue, bolstering performance and productivity through aligned team objectives.
